Notes from The Editor:

In order to make this report and directory a more useful document, a few explanations will be given to clarify certain aspects of the information provided.

The population figures used were taken from 1978 estimates provided by the Arizona State Department of Employment Security.

The per capita circulations and expenditures for the county libraries were computed by subtracting the populations of those cities and towns with libraries from the total county population because serving the remaining residents is felt to be the responsibility of the county library utilizing the headquarters library, bookmobiles, books by mail, and other means.

The categories for Staff were changed to reflect those provided in tne new Minimum Arizona Standards for Public Libraries and are compiled in Full Time Equivalents (FTE).

Some figures in the Financial Report section are recorded in parenthesis. This means that the same figure has been reported elsewhere (usually in the same library's figures or in the county library's entries) because of the need to clarify amounts spent in grants or a duplication in the reporting of county funds.

Kaibab, Colorado City and Moccasin Libraries (Mohave County), are serviced under contract by the Flagstaff-Coconino County Library. Moencopi Community Library (Coconino County) is serviced by the Winslow City - Navajo County Library.

Not Accessible by Handicapped (NAH) is shown as it was reported on the statistical report forms received by Library Extension Service.
